

# Introducing The Protector! Our **NEW** Rust Preventative

**NEW!**

## The Protector

The Protector is a semi dry, dual purpose rust preventative designed to be used on both cold and warm molds. Its semi dry nature allows for longer lasting protection without causing bleed through. The acid vapor neutralizer additive protects against PVC and other corrosive materials.

- Moisture displacing chemistry
- Does not migrate or cause bleed through
- Semi Dry for use on warm or cold molds
- Protects when molding PVC or other corrosive materials
- Up to 3-year protection
- Easy removal
