REDEVAULT™

PATENTED MOLD DATA STORAGE SOLUTION

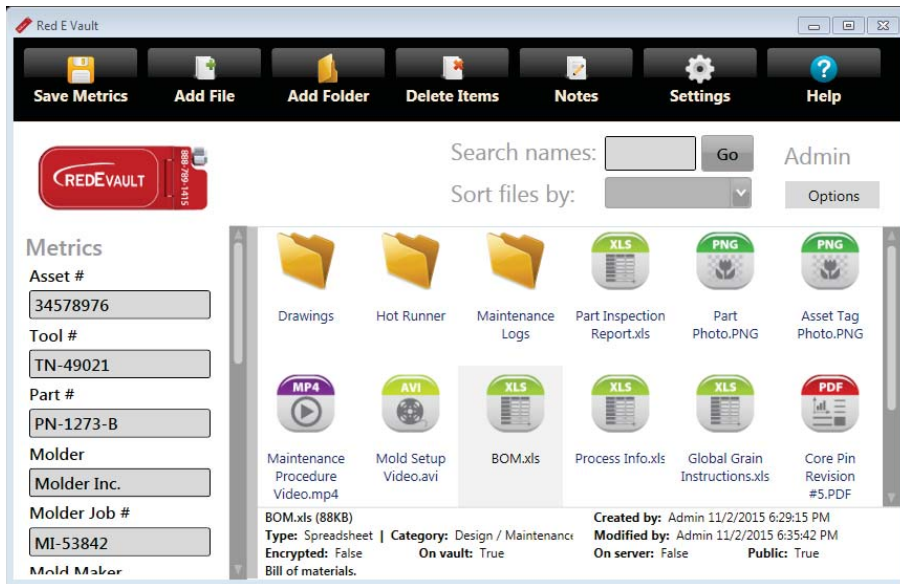

Never Lose Your Mold's Owner's Manual Again

Information is on-mold, where you need it and available anytime for reviews, repairs and maintenance.

It's quick and easy data retrieval that helps ensure standardized business practices and secures your confidential information without the worries of battery failure, making your data inaccessible.

User-Friendly Software Included

Easy access to your molds bill of materials, drawings, maintenance logs and processes, setup videos, photos and more.

Customizable list of metrics i.e. part number, count, average cycle time, etc. that allow you to keep a history of the information your organization deems most important.

Stores and categorizes files and notes.

Ability to encrypt files to keep your data away from prying eyes.

Files and notes can be emailed to addresses and domains approved by an administrator.

Branding and configuration portal to customize the user experience and easily configure any number of Red E Vaults.
